OCI Periodic Requirements

It is requested that the following changes be made in the OCI Periodic Requirements List for Western Europe.

Page 41. To read:

D. Economic (Soviet Bloc)

The Bloc countries, generally, are planning an expansion of their chemical industries, especially in the fields of petrochemicals and synthetics. Much of the chemical equipment, plant, and technology must be purchased from non-Communist countries if the Bloc countries are to meet their chemical goals. In addition to trade agreements and several Bloc countries (particularly USSR) which

h. Information on Bloc use of and product of chemical equipment, plant, and technology primarily for military purposes. (S)

Page 48. Add:

E. Economic (Sino-Soviet Bloc)

Recently, a two-year trade agreement was signed between Denmark and the USSR. Under this agreement, Denmark is to export chemical equipment to the Soviet Union, which has scheduled a large expansion of its chemical industry. (U)

1. Information is desired on chemical equipment and plant included in the trade agreement, giving the value, type, capacity, and date of delivery. (C)

Page 65. Add:

F. Economic (Sino-Soviet Bloc)

The Bloc countries, generally, are planning an expansion of their chemical industries, especially in the fields of petrochemicals and synthetics. Much of the chemical equipment, plant, and technology must be procured from non-Communist countries if the Bloc countries are to meet their chemical goals. (U) We are interested in the following:

a. Information on chemical equipment, plant, and technology included in the France-Soviet trade agreement covering through 1962 is desired, giving the value, type, capacity, and date of delivery. (C)

b. Sale of chemical equipment, plant, and technology to any Bloc country, including China, and attempts by Bloc countries to procure same. (S)

c. Sellers' names, prices involved, and terms of payment. (S)

d. Type and capacity of equipment and plant. (S)

e. Chemical process to be used. This is of particular interest since US controls the bulk of petrochemical know-how. (S)

f. Ultimate destination of chemical equipment and plant. (S)

g. Information regarding the effect on the growth and development of a particular Bloc country's chemical industry because of success or failure to procure chemical equipment, plant, and technology. (S)

SUBJECT: OCI Periodic Requirements

h. Information on Bloc use of end-product of chemical equipment, plant, and technology primarily for military purposes. (S)
